

Michael Weiss of Video Labs Selected as Smart100 recipient

CEO recognized as one of Greater Washington's thought leaders

Rockville, MD, February 3, 2009 – Video Labs announced today that CEO, Michael Weiss has been named to the *Washington SmartCEO* magazine 2009 Smart100 program, an exclusive group of 100 CEOs assembled by an independent selection committee. The Smart100 are not chosen based on the growth of the organization. A Smart100 CEO is selected for his or her Leadership, Strategic Vision and Character.

“When I added those three letters (CEO) to my title, it was done only because Video Labs passionate staff could support my vision to change and grow the company,” stated Mr. Weiss. “It’s easier to succeed when your co-workers also want the best for its company and clients,” concluded Michael.

As a selected member of the Smart100, Michael’s successes, leadership philosophies and character will be a source of education and inspiration for SmartCEO’s 17,000 readers month after month, year after year.

Smart100 companies represent a variety of industries including government contracting, information technology consulting, travel services, financial services, and video production. The average Smart100 company employs between 10 to 100 employees and generates \$10-\$50 million in revenue.

“The Smart100 represent 100 of greater Washington’s CEO’s. No other publications in the Greater Washington area have produced a publication of this magnitude with such high-caliber CEOs. The Smart100 embodies 100 CEO’s with incredible business minds who have successfully grown their companies to be the best in Washington,” says Group Associate Publisher of SmartCEO, Jaime Park.

Washington SmartCEO magazine is a regional “growing company” publication. *SmartCEO* believes that a “growing company” is really determined by the spirit, drive and dynamics of a company’s owners and managers, rather than by the size of its building, the number of its employees, or its sales volume.
